

# GTX S 155

## FEATURES CONTINUED

Interactive Multifunction Digital Information Center  
Cruise control, Slow mode, VTS, Fuel consumption instant & average, Fuel level, Tachometer, Speedometer, Hour meter, Compass, Clock, Touring mode, Sport mode, ECO mode, F-N-R indicator and more.

Handgrips with palm rest  
Sponsons  
Bumpers  
Wide-angle adjustable mirrors  
Footwell carpets with Sea-Doo logo pattern  
Swim platform carpet with Sea-Doo logo  
Reboarding handles on rear platform  
Rear grab handle  
Seat strap  
Quick latch fuel filler design  
Front splash deflector  
Dual drain plugs  
Engine access cover (removable)  
Flush kit  
Emergency floating lanyard  
Operator's guide, instructional video and booklet

## PROPULSION SYSTEM

iBR (Intelligent Brake & Reverse) system  
First and only true brake on a watercraft recognized by the U.S. Coast Guard for improving boating safety since 2009. Now in its 2nd generation, the intuitive and improved iBR allows you to stop close to 160 feet sooner<sup>1</sup> for greater peace of mind. All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.

Stainless steel impeller  
Delivers improved acceleration, higher top speed and less cavitation.

## OPTIONS

Wakeboard Rack  
Depth Finder  
Ski Module  
X package module (Time / distance to empty, Top / average speed / RPM, Lap timer and Engine temperature)  
Sea-Doo Speed Tie™  
Dry Bag  
Glove Box Organizer Kit  
Safety Equipment Kit  
Bilge Pump Kit  
Sandbag Anchor  
Fire Extinguisher  
Snap-in Fenders and Installation Kit  
Sea-Doo Move Trailer  
Watercraft Cover

## WARRANTY

BRP limited warranty covers the watercraft for one year.

**SEA-DOO**

## ENGINE

1,494 cc four-stroke, Rotax with three cylinders in-line and four valves per cylinder  
The most powerful, naturally aspirated Rotax engine on a Sea-Doo offers instant acceleration for instant fun. Tested and proven to be incredibly reliable and fuel-efficient for more than a decade.

iTC™ (Intelligent Throttle Control) system  
Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features activity-specific Touring, Sport and ECO™ modes that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.

iControl® Learning Key®  
The programmable Learning Key allows you to limit the performance of the PWC based on rider skill-level.

D-Sea-Bel™ system  
Combines a series of resonators and vibration-absorbing components to make Sea-Doo watercraft some of the quietest on the water.

Closed-Loop Cooling System  
Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.

## FEATURES

iControl  
The "Brain" that integrates and controls all systems to create the best possible ride.

S suspension  
Allows the hull to move independently of the upper deck, isolating rider and passengers from the impact of rough water. 5.5" of travel with manual adjustment under the seat so rider can adjust suspension to different water conditions and total passenger weight.

S<sup>3</sup> Hull®  
Stepped, stable & strong. The stepped design reduces drag and keeps you glued to the water.

Touring mode / Sport mode  
Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated using the Sport button. It provides all acceleration performance for a more aggressive throttle response.

ECO mode  
This iTC function automatically determines the most economical power delivery and sets the optimal RPM for greatest fuel economy.

Hinged seat  
Easy-open seat with convenient stay-open support struts. Provides easy access to the engine compartment while remaining attached to the watercraft.

Ergolock seat with stepped design  
Seat with narrow profile and knee support that lets people sit in a more natural position and leverage their leg muscles to hold on to the machine for more control and less upper body fatigue. Also featuring a stepped design for more comfort and better visibility to passengers.

Variable Trim System (VTS™)  
The VTS adjusts the angle of the nozzle to change the behavior of the watercraft and improve parallelism to the water.

Reboarding platform with rear storage  
Easy access to battery, fuses and storage.

Reboarding ladder  
Makes reboarding from the water easier and quicker.

Ski tow eye  
For easy and secure attachment of ski rope.

Watertight, removable storage bin  
Provides dry storage for luggage and necessities with easy access.

Tilt steering  
4 adjustable steering angles for maximum ease and comfort.

RF D.E.S.S.™ Key  
With radio frequency technology and a ball-and-socket design, the Digitally Encoded Security System (D.E.S.S.) key provides riders with easy and quick starts every time.

Off-Throttle Assisted Steering (O.T.A.S.®)  
Provides the operator with additional steering effect in off-throttle situations for greater maneuverability.

# 2017 LUXURY GTX<sup>+</sup> S™ 155

Sit back and enjoy the ride with a watercraft built for serious comfort thanks to Sea-Doo's exclusive suspension and Ergolock seat with stepped design. Long days of cruising just got more comfortable.

## RIDER CAPACITY

Weight capacity 500 lb / 227 kg

## DIMENSIONS

Fuel capacity 18.6 US gal / 70 l  
Length 139.2" / 353.5 cm  
Width 48.2" / 122.4 cm  
Weight (dry) 1,018 lb / 462 kg  
Storage capacity 16.6 US gal / 63 l

## ENGINE

Type Rotax® 1503 NA 4-TEC®  
Intake system Naturally aspirated  
Displacement 1,494 cc  
Cooling Closed-Loop Cooling System (CLCS)  
Reverse system Electronic iBR  
Starter Electric  
Fuel type 87 octane

Black & Deep Pewter Satin ●
